

Emad Askareimotlagh

Fullstack Developer

I build sustainable, high-quality digital solutions — from requirements analysis to delivery.

emad.askari@gmail.com +46 73-056 59 60 Gothenburg, Sweden

SKILLS

Frontend

React, Next.js, Vue, TypeScript and modern UI/UX principles for responsive, accessible interfaces.

Backend

Node.js, Express, .NET, FastAPI (Python), MongoDB, PostgreSQL, GraphQL and RESTful APIs for scalable systems.

Mobile

React Native and Flutter for cross-platform apps focused on performance and UX.

Working Methods

Agile workflows, Cypress, WebSockets, CI/CD, Mapbox, Stripe, Fortnox and collaboration in distributed teams.

EXPERIENCE

Scopeworks AB — 2024 – 2026

Fullstack Developer · Sweden

Developed web and mobile apps for clients within parking, security, time tracking and payments. Responsible for frontend, backend, APIs and production deployments.

Laggelee Technology Lab — 2023 – 2024

Fullstack Developer · Sweden

Built fullstack solutions focusing on web applications, APIs and team collaboration using agile practices.

Alliancecodes AB — 2022 – 2023

Freelance · Fullstack Developer

Freelance projects delivering web applications and backend systems from requirements to delivery.
